

November 1 - December 20

MCAT[®] PREP COURSE

8 weeks of LIVE, 3-hour virtual sessions
designed to improve your MCAT[®] performance.

Led by teaching assistants at Ponce Health Sciences University, students preparing to sit for the MCAT exam are invited to attend a live, **FREE** MCAT Prep Course.

How It Works

The best place to start MCAT preparation is knowing what topics will be covered in each of the sections. The entire program is 8 sessions over eight weeks, broken up by objective focus so students can elect to attend only a specific topic or join all sessions for the full experience.

Delivered via Zoom, students can participate from anywhere.

MCAT Monday's | 5:00pm - 8:00pm CST

Each session will be broken into three segments, each diving into specific focus areas that change each week.

SEGMENT 1

Chemistry & Physics

SEGMENT 2

Biology & Biochemistry

SEGMENT 3

Psychology & Sociology

Spaces are limited.

Contact your Admissions Advisor to learn more and register for the MCAT Prep Course today.
